Hulsen, Tim

Abstract

OurTravelPics.com shows our travel photos from all over the world: Africa [1], Asia [2], Europe [3], North-America [4] and Oceania [5]. The navigation menu gives the users a number of options. Users can search through the site [6], or browse through a list of highlights and persons. The site also includes maps of the world [7], countries and continents. Overviews of sets of photos can also be viewed by year [8] or month [9]. Each set of photos has a homepage with the top-5 photos of that set [10]. When GPS information is available, there is also a map for that set of photos [11]. Last but not least, the photos are also available on Flickr [12].
